Skills

- JavaScript | React | SCSS | HTML | CSS | Bootstrap| Material UI | Git | Node | Express.js | MongoDB | Mongoose.
- Frontend| Backend| Full stack

Experience

Junior Frontend Developer   **Abia Tech Hub**   Jan 2022 – Aug 2022

- Worked collaboratively with the development team to create responsive and user-friendly web applications.
- Utilized React, and Bootstrap to develop dynamic frontend interfaces.
- Conducted code reviews and implemented improvements to ensure best practices and maintainable code.
- Communicated regularly with team members to understand project requirements and provide updates on development progress.

Frontend Developer Intern   **Flexip Group Technologies**   Jun 2021 – Dec 2021

- Assisted in the development of multiple websites using HTML, CSS, and JavaScript.
- Conducted usability tests and provided recommendations to improve user experience.
- Collaborated with designers to ensure consistency in visual design and branding.

Education

Bachelor of Science   **Gregory University Uturu**   Oct 2019 – Dec 2022
Major in Computer Science

Projects

- **Web-based money management system** — I designed and developed a web-based money management system that places emphasis on aiding individuals in creating precise budgets, monitoring their expenses, and establishing limits for unplanned spending. This project demonstrates my expertise in web development and showcases my ability to develop solutions that address practical problems.
- **Crypto Investment Platform** — I architected and deployed a robust cryptocurrency platform, leveraging cutting-edge technologies such as React, JavaScript, Node, Express, and MongoDb. The platform's core functionality centers around providing seamless cryptocurrency investment capabilities to users, facilitating effortless investment journeys.
- **Personal Portfolio Website** — I designed and developed a professional-grade personal portfolio website by leveraging industry-standard web development tools such as HTML, CSS, and Bootstrap. The primary objective of this project was to showcase my technical expertise and experience in web development, while also highlighting my various accomplished projects.

Others

Gold Award: Won first position in developing a fuel-less generator at NTA science exhibition Abuja, Nigeria.   (Oct 2017)
