Skills

- JavaScript | TypeScript | React | SCSS | HTML | CSS | Bootstrap| Material UI | Git | Node | Express.js | MongoDB | Mongoose.
- Frontend| Backend| Full stack

Experience

Software Engineer   **CreteHost**   May 2022 – Feb 2023

- Developed a robust and scalable hosting management platform that streamlined the process of provisioning, monitoring, and managing web hosting services for clients.
- Collaborated with the customer support team to develop a customer portal with self-service features, reducing support tickets by 40% and enhancing customer satisfaction.
- Received recognition for exceptional problem-solving skills, consistently resolving complex technical issues and ensuring minimal downtime for client websites.

Frontend Developer Intern   **Flexip Group Technologies**   Jun 2021 – Dec 2021

- Assisted in the development of multiple web apps using React and TypeScript.
- Conducted usability tests and provided recommendations to improve user experience.
- Collaborated with designers to ensure consistency in visual design and branding.

Frontend Developer   **Abia Tech Hub**   Apr 2019 – May 2021

- Worked collaboratively with the development team to create responsive and user-friendly web applications.
- Utilized React, and Bootstrap to develop dynamic frontend interfaces.
- Communicated regularly with team members to understand project requirements and provide updates on development progress.

Education

Bachelor of Science   **Gregory University Uturu**   Oct 2019 – Nov 2022
Major in Computer Science

Projects

- **Web-based money management system** —— I designed and developed a web-based money management system that places emphasis on aiding individuals in creating precise budgets, monitoring their expenses, and establishing limits for unplanned spending. This project demonstrates my expertise in web development and showcases my ability to develop solutions that address practical problems.

- **Crypto Investment Platform** —— I architected and deployed a robust cryptocurrency platform, leveraging cutting-edge technologies such as React, JavaScript, Node, Express, and MongoDb. The platform's core functionality centers around providing seamless cryptocurrency investment capabilities to users, facilitating effortless investment journeys.

Others

Gold Award: Won first position in developing a fuel-less generator at NTA science exhibition Abuja, Nigeria.   (Oct 2017)
